

JADE STANGER

London born and Brighton based Jade Stanger is an indie-folk singer-songwriter. Honesty and authenticity is at the heart of Jade's storytelling music style, as she draws on personal experiences for the inspiration behind her music.

Studying at the Brit school and Italia Conti was an invaluable base for Jade's skills, but she truly found her calling when she explored the world and threw herself into music that reflected her life. Recently, she has expanded her sound from solo acoustics to the inclusion of a full band set up alongside her vocals. New music is on the horizon, with releases expected in 2022, as well as a side project of songs titled 'Waiting For Strangers' which will cover multiple genres.
